

SIT's Public Statement for Cessation of SIT-NU Mechanical Design and Manufacturing Engineering Programme

The Bachelor of Engineering with Honours in Mechanical Design and Manufacturing Engineering (MDME), a joint degree programme currently offered by SIT and Newcastle University (NU), will take in its final cohort of students in AY2026/2027. SIT and NU have decided to cease the joint degree programme as part of the regular review process for academic programmes.

Our current MDME students and alumni will not be affected. SIT and NU are committed to ensuring that the quality of teaching remains of a high standard until the final batch of students graduate in 2029. The joint degree will continue to be recognised in Singapore and beyond.
