BACHELOR OF SCIENCE WITH HONOURS IN

NURSING
ABOUT THE UNIVERSITY OF GLASGOW

Founded in 1451, the University of Glasgow (UofG) is the fourth-oldest university in the English-speaking world and is in the top 1% of universities in the world. UofG is a member of the distinguished Russell Group, comprising the United Kingdom’s 24 leading research-intensive universities, and is also a founding member of Universitas 21 — a network of universities established as an international reference point and resource for strategic thinking on issues of global significance. UofG students graduate with the skills they need to compete in a global workplace, and with friendships and networks that last a lifetime.

UofG has inspired thinkers from eminent scientist Lord Kelvin and distinguished engineer James Watt to father of economics Adam Smith, and counts seven Nobel Laureates amongst its alumni. UofG sustains a broad portfolio of leading-edge research funded by industry, research councils and governmental agencies.

PROGRAMME INFORMATION

The Bachelor of Science with Honours in Nursing is a two-year post-registration programme jointly offered by Singapore Institute of Technology (SIT) and the University of Glasgow (UofG). The nursing programme has been co-created and designed with inputs from practice partners and the Ministry of Health. It will be seeking accreditation from the Singapore Nursing Board (SNB). This degree programme builds on the foundation that students have established during their nursing diploma studies. The aim of the programme is to develop critical, analytical and innovative skills, as well as leadership, research, teaching, and clinical competencies. Through the programme’s applied learning approach, graduates will be able to translate new nursing knowledge into practice.

CURRICULUM STRUCTURE

The SIT-UofG Nursing programme has a range of modules designed to equip students with relevant knowledge and skills that will help them meet the healthcare challenges of Singapore and take the nursing profession forward. They will learn to analyse personal and professional values, and make sound, evidence-based and ethical decisions that will prepare them for leadership roles.
### TRIMESTER 1
1. Healthcare Ethics and Law  
2. Qualitative Research Methods  
3. Health Assessment and Clinical Reasoning*  
4. Healthcare Systems and Management

### TRIMESTER 2
1. Critical Analysis of Evidence and Clinical Applications  
2. Fostering Evidence-based Practice in Clinical Settings  
3. Health Innovation and Informatics*  
4. Quantitative Research Methods and Statistical Appraisal  
5. Development in Nursing Practice

### TRIMESTER 3
1. Population Health  
2. Health and Social Policy  
3. Intermediate and Long Term Care  
4. Overseas Immersion Programme (OIP)

### PROGRAMME HIGHLIGHTS
The programme adopts different pedagogical approaches to teaching and learning such as team-based learning, flipped classroom, standardised patients and simulation-based education.

There is an emphasis on integration of knowledge and practice in the delivery of patient care. It also includes module-focused clinical placement in hospitals and the community throughout the programme. In addition, the overseas clinical observation will provide students with an opportunity to learn about the healthcare provision and system in Scotland.

Besides developing theoretical knowledge and clinical skills, students will gain an insight into health and social policies, and apply innovation in healthcare, as well as strengthen their skills in interdisciplinary collaboration and partnerships.

In addition, elements of the SIT-DNA are embedded throughout the curriculum, shaping graduates who are thinking tinkerers, able to learn, unlearn and re-learn, catalysts for transformation, and grounded in the community.
CLINICAL PRACTICE EDUCATION [INTEGRATED WORK STUDY PROGRAMME (IWSP)]

In this programme, students are expected to complete a total of six weeks of clinical education and four weeks of overseas immersion in Glasgow, Scotland (UK). The six-week clinical placements are embedded within specific modules, namely Health Assessment and Clinical Reasoning, Health Innovation and Informatics, and Teaching and Learning. Students are required to complete a Consolidated Nursing Practice module that allows them to critically reflect on all clinical experiences during the programme. It is mandatory for all students to complete the Overseas Immersion Programme (OIP) during which they have to attend two weeks of taught seminars and two weeks of clinical observation in an overseas context.

ADMISSION REQUIREMENTS

SIT selects candidates for this programme using a holistic approach that considers passion and suitability for the profession, academic achievement, co-curricular involvement and medical clearance. Short-listed candidates will be invited for interviews.

Students applying for entry to the Bachelor of Science with Honours in Nursing programme should:

• Be qualified as a Registered Nurse
• Hold current registration with the SNB
• Have successfully completed an SNB-accredited Diploma in Nursing programme in Singapore.
  Only these two diplomas are accredited:
  – Nanyang Polytechnic: Diploma in Nursing
  – Ngee Ann Polytechnic: Diploma in Health Sciences (Nursing)

CAREER OPPORTUNITIES

Graduates can pursue more advancement opportunities in their future careers as Senior Staff Nurse, Senior Nurse Educator, Senior Nurse Clinician or Senior Nurse Manager. Graduates can also further their studies by undertaking a Master in Nursing after which they may also pursue future career opportunities in more senior positions such as Director of Nursing/Chief Nurse, Advanced Practice Nurse or Principal Nurse Educator.
INDUSTRY ADVISORY COMMITTEE

The Industry Advisory Committee members for this programme are:

Ms Susan NIAM (Chairperson)
Chairperson, Allied Health and Pharmacy
Tan Tock Seng Hospital

Ms CHEE Thong Gan
Assistant Chief Operating Officer
Jurong Health

Mr Anjan Kumar GHOSH
Director, Service Planning and Development Group
National Council of Social Services

Dr Tyrone GOH
Executive Director
National Healthcare Group Diagnostics

Assoc Prof LIM Swee Hia
Senior Director
Alice Lee Institute of Advanced Nursing
SingHealth

Mr Abhimanyau PAL
Executive Director
SPD

Prof Celia TAN
Group Director, Group Allied Health
SingHealth

Dr Pauline TAN
Chief Executive Officer
Yishun Community Hospital

Ms TAN Soh Chin
Chief Nursing Officer
Ministry of Health

Dr Sherry YOUNG
Head and Senior Consultant
Rehabilitation Medicine
Changi General Hospital
